## ADJUSTING WEDGE

TRIGO T50

TRIGO T23

TRIGO T14

The trigonal shape of the TRIGO adjusting wedges ensures quick and easy installation of decking substructures made of wood, wood-like materials or aluminium.

Three adjustment wedges can compensate for differences in height from 14 mm to 67 mm.

The design of the jagged teeth ensures a non-slip and deformation-free connection.

The special design and choice of materials have a sound absorption effect.

TRIGO adjustment wedges can be used universally and in any combination.

TRIGO		
Description	PU	Prod. No.
T14	100 PAIR	012312001
T14 + T23	75 PAIR	012412001
